Playing for the Future are the only coaching organisation in the area providing pathways for young people into different sports. We have contacts at a range of different clubs in Northern Ireland.

We are a non-profit Community Interest Company. Our goal is to benefit the community where we work and focus on making a difference to the lives of young people.

We place a great emphasis on creating a child focused environment where we care about the child's needs and spend time working on their development.

We are lucky to have a network of highly qualified coaches and boast a football academy programme that has been designed using best practice from clubs such as Real Madrid, Leeds United and Huddersfield Town. We have contacts at a host of professional clubs in England.
