

Playing for the Future are the only coaching organisation in the area providing pathways for young people into different sports. We have contacts at a range of different clubs in Northern Ireland.

We are a non-profit Community Interest Company. Our goal is to benefit the community where we work and focus on making a difference to the lives of young people.

We place a great emphasis on creating a child focused environment where we care about the child's needs and spend time working on their development.

We are lucky to have a network of highly qualified coaches and boast a football academy programme that has been designed using best practice from clubs such as Real Madrid, Leeds United and Huddersfield Town. We have contacts at a host of professional clubs in England.

Fed up with the usual birthday party routine, same as last year, the year before, or the same birthday party as everyone else?

The Playing for the Future Birthday Party packages

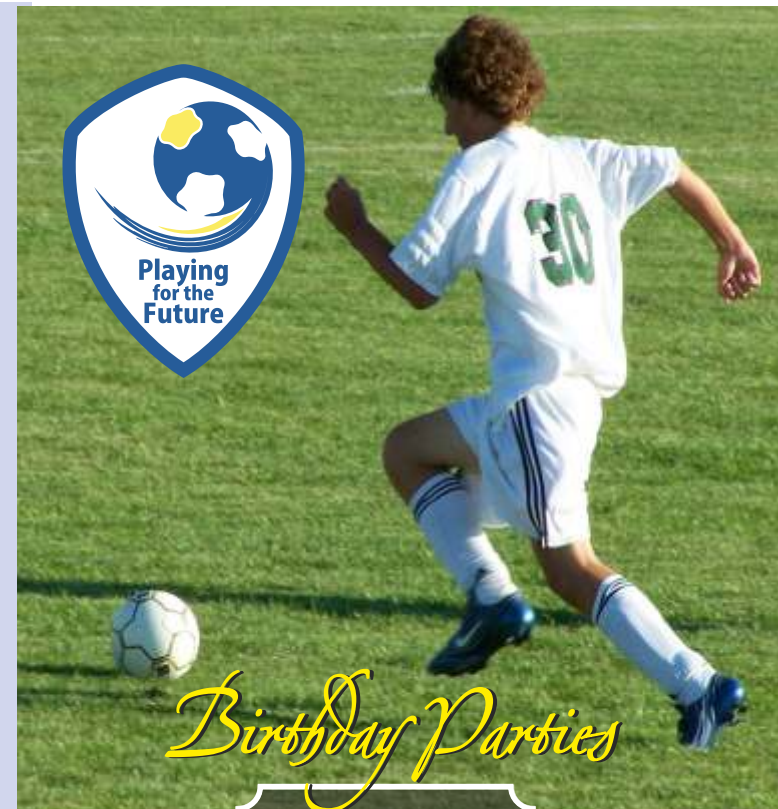

are designed to meet the needs of your child and offer an unforgettable experience. Our parties are designed to give your child a different experience than everyone else through our tailor made coaching programme that is guaranteed to offer something different every time, guaranteed!

We focus on quality and offer the best personal service available. We exist to benefit the community so not only do you provide your child with a birthday experience of a lifetime, by investing in us you are also investing to improve the community.

We work on a ratio of 1:10 (1 coach to every 10 kids). This allows us to focus on each individual child's needs and provide a high level of coaching.
